

TRAVEL ACTION PLAN

INTRODUCTION

Travel to and from football activities contributes significantly to a Club’s environmental impact. Encouraging more sustainable travel can reduce emissions, improve accessibility and support healthier lifestyles.

This action plan supports your Club to plan practical travel actions that reflect your location, facilities and members.

HOW TO USE THIS ACTION PLAN

Use the table to record travel and transport actions your Club plans to take, such as promoting walking, cycling, car sharing or public transport.

Actions should align with your Green Goals and be appropriate for your Club’s context. Not all actions will suit every Club.

Reviewing progress helps understand what is working and where further improvements can be made.
