

BIODIVERSITY ACTION PLAN

INTRODUCTION

Football Clubs can play a positive role in protecting and enhancing biodiversity, both on and around their facilities. From managing green spaces to supporting pollinators, even small actions can have a meaningful impact on local nature.

This action plan helps your Club plan practical biodiversity actions that support healthier ecosystems and more resilient facilities, whether you own your buildings or use shared or third-party venues.

HOW TO USE THIS ACTION PLAN

Use the table to record biodiversity actions your Club would like to take. These may focus on pitch surrounds, unused land, planting, habitat creation or changes to maintenance practices.

Link actions to your Green Goals and identify who will lead on each action. Actions can be simple and low-cost.

Review progress regularly to understand the impact and identify further opportunities.

ACTION PLAN – BIODIVERSITY

ACTION PLAN – BIODIVERSITY

ACTION TO BE TAKEN	LINK TO GREEN GOAL	WHAT WILL BE DONE	WHO IS RESPONSIBLE	TIMESCALE	SUPPORT NEEDED	PROGRESS / REVIEW NOTES
Create pollinator friendly area.	Support local biodiversity	Leave off the pitch grass to grow and plant wildflowers	Grounds staff / Volunteer	Spring 2026	Seed donation	Area established, visible increase in insects
Reduce herbicide use	Improve nature-friendly maintenance	Trial reduced spraying in non-playing areas	Grounds Team	Ongoing	Advice from the local authority	No negative impact on pitch use

FURTHER SUPPORT

Biodiversity action is about working with nature over time. Clubs are encouraged to start small and build confidence and ambition gradually.

Further information on biodiversity actions and resources can be found at www.faw.cymru/TogetherGreener
