

WATER ACTION PLAN

INTRODUCTION

Water is an essential resource for football, from pitch maintenance to changing facilities. Using water efficiently helps reduce costs, protect local water environments and improve long term resilience, particularly during periods of drought or heavy rainfall.

This action plan helps your Club to identify and plan practical actions to reduce water use and protect water quality, whether you own your buildings or use shared or third-party venues.

HOW TO USE THIS ACTION PLAN

Use the table to record water-related actions your Club would like to take. These may include actions to reduce water consumption, improve maintenance practices or protect local water environments.

Link actions to your Club’s Green Goals where possible and identify who will lead on each action. Actions can be small and incremental.

Reviewing your action plan regularly will help monitor progress and identify further opportunities.

ACTION PLAN – WATER

ACTION PLAN – WATER

ACTION TO BE TAKEN	LINK TO GREEN GOAL	WHAT WILL BE DONE	WHO IS RESPONSIBLE	TIMESCALE	SUPPORT NEEDED	PROGRESS / REVIEW NOTES
Monitor water usage monthly	Reduce water use	Record water meter readings each month	Treasurer	Ongoing	Meter reading sheet	Usage now tracked, seasonal spikes identified
Promote shorter showers	Encourage responsible water use	Introduce five-minute shower messaging in changing rooms	Team Managers	By February 2026	Posters	Positive feedback, good engagement from youth teams

FURTHER SUPPORT

Improving water efficiency and quality is an ongoing process. Clubs are encouraged to review actions regularly and adapt plans as conditions change.
