

MANAGEMENT ACTION PLAN

INTRODUCTION

Strong leadership and effective planning are essential to embedding sustainability across every aspect of Club activity. By developing clear plans, setting priorities and engaging members, Clubs can reduce their environmental impact while building resilience, strengthening governance and creating lasting benefits for players, volunteers and the wider community.

This action plan supports your Club to turn sustainability ambitions into practical actions. Whether you are developing a sustainability strategy, measuring your carbon footprint, engaging your community or preparing for climate change, the plan will help you organise activities, assign responsibilities and monitor progress over time.

HOW TO USE THIS ACTION PLAN

Use the table to record the sustainable management actions your Club plans to take. These could include developing strategies and policies, improving governance, increasing climate awareness, measuring environmental performance, strengthening partnerships or delivering education and engagement activities.

Link each action to one or more of your Together Greener Green Goals and consider what support, resources or funding may be needed. Actions may be immediate, short-term or longer-term depending on your Club's priorities and capacity.

Review your action plan regularly to celebrate progress, identify any barriers and update priorities as your Club continues its Together Greener journey.

ACTION PLAN – MANAGEMENT

ACTION TO BE TAKEN	LINK TO GREEN GOAL	WHAT WILL BE DONE	WHO IS RESPONSIBLE	TIMESCALE	SUPPORT NEEDED	PROGRESS / REVIEW NOTES
Develop a Club Sustainability Strategy	Strengthen sustainable leadership and governance	Create a simple sustainability strategy with clear objectives, actions and responsibilities aligned to the Together Greener Programme and Club priorities.	Club Committee / Green Team	By December 2026	FAW Together Greener resources, committee workshop	Strategy approved by committee and shared with members. Annual review scheduled.
Develop a Carbon Reduction Plan	Reduce the Club's carbon footprint	Identify the Club's main sources of emissions, establish a baseline where possible and produce a phased action plan to reduce emissions across travel, energy, waste and operations.	Green Team	By March 2027	FAW guidance, utility data, travel information, external carbon advice (if available)	Baseline completed and priority carbon reduction actions incorporated into the Club Action Plan.

FURTHER SUPPORT

Club management improvements are often delivered over time. Clubs are encouraged to take a phased approach and review actions regularly.
